Telestream 's East Coast location in Sterling, Virginia specializes in products that make it possible to get video content to any audience regardless of how it is created, distributed or viewed. Products range from desktop components and cross-platform applications to fully-automated, digital media transcoding and workflow system.

Telestream enables users in a broad range of business environments to leverage the value of their video content.

Provides closed captioning systems, solutions and services to enable persons who are deaf or hearing-impaired to more fully participate in activities such as watching TV. Captioning, subtitling and teleprompting now available for DVD, webcasting and V-Chip software.

Closed & Open Captioning available in English, Spanish, French, Portuguese, Dutch, German and Italian; Subtitling has unlimited language capability.
