Paratransit Service, or 'PTS,' is a public transportation service offered by the Greater Lynchburg Transit Company (GLTC) for qualifying individuals whose disability prevents them from using the regular GLTC bus routes. The Americans with Disabilities Act (ADA) has established regulations and standards for this service. It is also sometimes called ADA service. These rides are provided in vehicles smaller than buses but may have more than one passenger aboard. Rides can be requested from and to any location within the service area. GLTC's service area for PTS includes the entire city of Lynchburg and a three-quarter (3/4) mile radius around the bus routes that extend beyond the city limits.

PTS provides an origin-to-destination service. The PTS driver or operator will assist you with boarding and disembarking the vehicle and help you secure yourself or your mobility device in the vehicle.

The fare for each trip is \$4.00 per person per one-way trip. You must have the exact fare, as drivers do not carry change. For your convenience, you may purchase debit cards worth \$40.00 in fares from the operators. The debit cards do not expire.
