The Orthopaedic Center of Central Virginia, Inc. was established in 2005.

The physicians at Blue Ridge Orthopedics, Central Virginia Orthopaedics, and Piedmont Orthopaedic Surgery saw a way to develop a center for excellence in complete musculoskeletal medical services: They combined their practices into The Orthopaedic Center.

Multidisciplinary team offers help at The Spine Center, Rheumatology Center, Physical and Hand Therapy Center, as well as help with Wellness and Sports Performance. Call for more information.

The combined resources offer the community a wealth of experience and expertise within one practice:

- * Fellowship trained surgeons and board certified physicians
- * Physician assistants
- * Physical and occupational therapists
- * Nursing and x-ray staff
