The Center serves as a resource for people with Parkinson's and other movement disorders in Virginia, offering multidisciplinary evaluation and treatment, access to clinical research protocols and educational programs.

The Center is committed to educating and training future investigators and health care professionals. Workshops and seminars for students, clinicians and scientists

are hosted. It is a priority for the Center to facilitate opportunities for the sharing of information for all to learn and benefit. Learning opportunities are available for patients and families, as well as health care professionals.

[Visit the website](#) to learn about upcoming seminars and community presentations.
